BOSWELL AVENUE MAN HELD FOR THEFT OF 200 YARDS OF CLOTH

About 200 yards of cloth, valued at
\$60, were found Monday morning at the
home of Joseph Alubuk, 723 Boswell
avenue, an employee of the United States
Finishing Co., when his house was vis-
ited by Captain John P. Newell of the
Watts detective agency of Boston, who
was accompanied by Officers Morgan and
Driscoll of the Norwich police force.
John W. McKinley, master mechanic,
and Arthur R. Ellison of the bleachery
were also present.

All the cloth found and seized by the
officers was identified as having come
from the bleachery and Alubuk was ar-
rested and locked up at police head-
quarters until his landlord gave bail
for him in the sum of \$500 late in the
afternoon.

Alubuk, who has been employed as a
belt and roller at the bleachery, will
be presented in the police court on the
charge of grand larceny.

The cloth found at his home was in
closets, beds and bureau drawers, with
one lot in a large trunk which was lock-
ed and in which the man's wife told the
officers there was nothing. As the man
was not at home when the officers ar-
rived, he was sent for so that the trunk
key could be secured and when the
trunk was opened the cloth was found
inside.

This arrest makes the third of this
kind recently made here by Captain
Newell, who previously has been at the
bleachery and the other at the
Penman Co. In each case the searches,
seizures and arrests have been made
on information secured through the mer-
cantile protective service, which is or-
ganized and protected by the Watts De-
tective agency and is giving special at-
tention to checking thievery from large
mills and manufacturing.

Needed at Dances And the Sea Shore

(Aids to Beauty)

Here is a home treatment for re-
moving hairs that is quick, painless
and inexpensive: Wash some powdered
delatone and water make enough paste to
thickly cover the objectionable
hairs, apply and after 2 or 3 minutes
rub off, wash the skin and it will be
left soft, clear and hairless. This
treatment will not mar the skin, but to
avoid disappointment, be careful to
get real delatone. Mix fresh as want-
ed.

GIRL RUNS INTO STREET
WITH HER CLOTHES ABLAZE
Beatrice Shragowitz, 11 year old
daughter of Mr. and Mrs. Max Shragow-
witz of 429 Bank street, New London,
was seriously burned Sunday night when
her clothing caught fire from matches.

The child undoubtedly owes her life to
the prompt action of Cornelius Foun-
telle, salesman for the Humphrey-Tor-
nell Co. and Herbert Sanger of New
York, son-in-law of Mr. and Mrs. Simon
Fountain, of Ocean avenue, who ex-
tinguished the flames.

The accident happened about 10.45
when the girl, left home to care for her
two younger brothers while her parents
saw friends off on the New York boat
and secured a box of matches off the mantel
and lighted one. In some manner a light
flimsy summer dress she was wearing
caught fire and it was soon ablaze. The
girl made vain efforts to extinguish the
flames herself but when she was un-
successful and she realized that they were
getting beyond her control, she ran out
of the house and into the street.

Mr. Donohue who happened to be pass-
ing by saw the girl enveloped in flames,
running down a flight of outside stairs
leading from her home to the sidewalk.
He seized the girl and threw her down,
rolling her over and over on the sidewalk
to extinguish the flames and had them
quickly under control when Mr. "Hos"
drove by in his machine, taking Mr.
Sanger to the New York boat. Donohue
hauled the machine and shouted for a
blanket and Sanger, taking the situation
at a glance, jumped into the car with
an automobile role which he wrapped
about the girl, smothering the flames.

FOURTH DEGREE KNIGHTS
TO HAVE OUTING
An official outing of the fourth de-
gree Knights of Columbus of the state
of Connecticut has been sanctioned by
State Master John M. Lee of Norwich.
and arrangements are being made where-
by Rev. George Deshon assembly at
New London will have the outing in
charge.

The steamer Nelsco II has been se-
cured and will leave Fisher's Island
wharf and proceed up the picturesque
Thames river over the famous Yale and
Harvard race course to the United States
Submarine base, where a stop will be
made and the guests taken through the
government installation.

After this visit a sail will be taken
through the New London harbor, afford-
ing an excellent view of the historic
forts, Old Fort and Trumbull, and out
of the harbor and along Long Island
sound, in sight of Fisher's Island and
the coast defense fortifications, Forts
Wright, Mifflin and Terry. Arrangements
have been made with the United
States naval officials to have one of the
submarine dive at some point to be se-
lected by the commander of the naval
post and this feature it is expected will
afford heightened interest to many un-
familiar with the naval fleet.

A buffet lunch will be served on the
steamer during this trip around the
harbor and then returning through the
sound the merry-makers will land at the
Griswold hotel, where a special dinner
will be enjoyed. At the close of the din-
ner the guests will return to New Lon-
don.

While the appearance of goldenrod is
always a signal for alarm on the part of
those numbered among hay fever suffer-
ers, the so-called American hay fever
does not get under way in real earnest
much before the middle of the month, al-

though the time depends to a great ex-
tent upon the individual. Some folks
have already begun to sneeze their heads
off, and to experience the customary
burning sensation within the nostrils, the
watering of the eyes, and perhaps the
asthmatic condition which frequently is
an attendant characteristic. To them the
appearance of goldenrod is no sign for
joy, although the discovery of the medi-
cal profession would seem to eliminate
most of the stigma which has been
placed upon the yellow name of the fa-
miliar roadside plant, and heap the
ignominy upon the less pretentious ap-
pearing ragweed. In fact, ragweed has
been given credit for misery-reducing
characteristics which it does not possess.

There are no less than 47 varieties of
the familiar goldenrod within the terri-
torial confines of the Nutmeg State,
while but three varieties of the same
species are found throughout continental
Europe. Statistics of that nature are
hardly of interest to those concerned in
avoiding its terrors. But if the researches
of our medical friends are worth any-
thing, the much abused goldenrod has
been given credit for misery-reducing
characteristics which it does not possess.

Against Prohibition.
Connecticut figures in the fourth in-
stallment of the tabulation of the poll
taken by the Literary Digest on probi-
tion, nearly 60,000 votes from the "land

of steady habits" being listed, and show-
ing the largest number for modification
of the Volstead law, in favor of light
wines and beer, with strict enforcement
of the 18th amendment to the constitu-
tion and the amendment last.

MASSONS ARE PLANNING
AN ALL-DAY OUTING
Arrangements are nearly completed for
the all-day outing of Masonic blue
lodges of Connecticut at Double Beach,
near New Haven. The outing will be
open to all Master Masons of this state.
A program is being arranged which will
include speeches from the state's most
prominent men. There will be athletic
events of many kinds.

Among those who are expected to be
present are Governor Lake, Lieutenant-
Governor Charles A. Templeton, Con-
gressman John Q. Tilson and Frank L.
Wilder, grand master of Connecticut. An
invitation will be sent to President Har-
ding.
